

Grain: World Markets and Trade

Russia Imposes Wheat Export Duty— But Exports Still Second Highest On Record

The Russian government recently announced a wheat export duty, effective February 1 through June 30. As the Russian ruble depreciated significantly over the last several months, wheat was exported at a record pace, and domestic prices rose sharply. The government attempted to slow exports by enforcing sanitary and phytosanitary standards, limiting railcar loadings, increasing the intervention price, and then implementing the duty. Exports are expected to be uncompetitive once the duty is in place.

Although Russia's wheat export forecast is cut from a record 22 million tons to 20 million this month, it remains the second highest on record. More than 80 percent of the forecast was shipped by the end of 2014. Russia's exports are expected to continue through January as exporters fulfill contracts before the duty takes effect.

The global impact on trade is expected to be minimal because other exporter supplies are abundant. Prices initially spiked with the announcement of the duty but have since subsided. Russia's major markets are in the Middle East and North Africa. With competitive prices, plentiful supplies, and proximity to major markets, the EU and Ukraine are in the best position to take advantage, although other exporters may also benefit.

Note: Consumption in this table has not been adjusted for differences in marketing year imports and exports and therefore differs from global totals shown elsewhere.

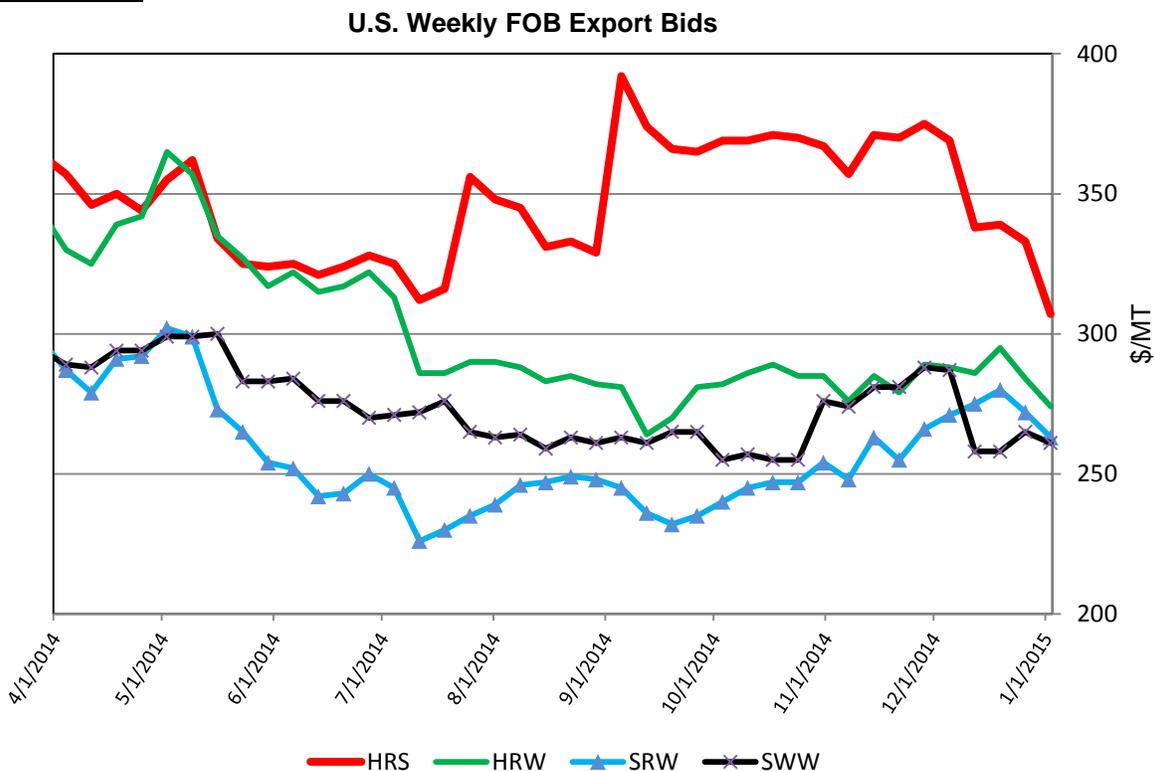

Marketing years for U.S. grains are: Wheat (Jun-May), Rice (Aug-Jul), Corn (Sep-Aug).
'Marketing Year' column is germane for U.S. wheat only.

WHEAT: WORLD MARKETS AND TRADE

OVERVIEW

Global production for 2014/15 is projected at a new record. Global trade is up slightly as higher projected imports, primarily in the EU and Iran, more than offset cuts in China and Ethiopia. Russian exports are slashed as a result of an export duty that takes effect February 1. Exports for EU and Ukraine are raised as both are in the best position to benefit from Russia's declining presence in the market. U.S. trade is unchanged, but the season-average farm price is raised slightly.

U.S. PRICES:

Domestic: Export prices for all wheat classes dropped in December. Hard Red Spring (HRS) plunged \$62 to \$307/ton because of improved rail logistics and falling freight costs. The export quote is the lowest since July 2010. Hard Red Winter (HRW) prices slid \$14 to \$274/ton. Soft Red Winter (SRW) fell \$8 to \$263/ton, and Soft White Winter (SWW) tumbled \$26 to \$261/ton for reasons similar to those of HRS.

TRADE CHANGES IN 2014/15

Selected Exporters

- **Canada** is up 500,000 tons to 23.5 million on the pace to date and strong global demand for durum.
- **EU** is boosted 1.0 million tons to 30.0 million on reduced competition from Russia.
- **Iran** is raised 500,000 tons to 1.2 million on reports of greater flour exports to neighboring countries.
- **Russia** is cut 2.0 million tons to 20.0 million because an export duty that begins February 1 is expected to curtail shipments.
- **Ukraine** is raised 700,000 tons to 11.0 million with new opportunities in the EU due to the preferential duty-free quota and reduced competition from Russia in other markets.

Selected Importers

- **EU** is up 500,000 tons to 5.5 million on expectations that Ukraine will export feed-quality wheat to southern EU countries.
- **Iran** is boosted 500,000 tons to 6.5 million on continued strong purchases and recent deliveries.

NOTES: Regional definitions appear on last page of this circular. Imports are reported on a trade year basis. All other data are reported using local marketing years.

RICE: WORLD MARKETS AND TRADE

OVERVIEW

Global production for 2014/15 is up slightly. Global trade is higher due to greater demand in China and stronger exports for Thailand, Burma, and Paraguay. Global consumption is revised higher, while stocks are marginally lower. U.S. production is virtually unchanged, and imports are raised.

Thai Rice Exports Climb to a New High

Thailand rice exports are forecast to reach a new high in 2014/15. The government is actively seeking export opportunities to reduce the massive stocks, accumulated under the discontinued paddy pledging scheme, which pushed down prices. Though a surge in exports in 2013/14 helped draw down stocks, exportable supplies remain large with the harvest of the main crop. Government-led sales are likely to drive Thai exports for the foreseeable future.

SELECTED TRADE CHANGES for 2014

- **Bangladesh's** imports are up 150,000 tons to 850,000 on greater imports from India.
- **Burma's** exports are up 100,000 tons to 1.6 million on trade to date.
- **India's** exports are up 500,000 tons to 10.5 million on larger shipments to neighboring countries and Saudi Arabia.

-
- **Paraguay's** exports are up 100,000 tons to 350,000 on stronger shipments to other South American countries.
 - **Saudi Arabia's** imports are up 125,000 tons to 1.5 million on larger shipments from India.
 - **Sri Lanka's** imports are up 130,000 tons to 300,000 on larger purchases from India.
 - **U.S.** exports are cut 100,000 tons to 3.0 million on trade to date.

SELECTED TRADE CHANGES for 2015

- **Burma's** exports are boosted 150,000 tons to 1.6 million on expected strong shipments to the EU and countries in Asia.
- **China's** imports are up 300,000 tons to a record 4.3 million to reflect recent agreements with Burma and Thailand.
- **Paraguay's** exports are up 140,000 tons to a record 400,000 on a larger crop.
- **Thailand's** exports are up 300,000 tons to a record 11.3 million as the government actively seeks market opportunities to reduce stocks.

COARSE GRAINS: WORLD MARKETS AND TRADE

OVERVIEW

Barely remaining a record, world corn production is lowered as smaller U.S. production more than offsets larger crops in India and the EU. Imports are slightly higher on a larger forecast for Canada (adjustments in Turkey and the EU are offsetting). The U.S. season-average farm prices for both corn and sorghum are raised this month with sorghum now above corn for the first time since 2006/07.

PRICES

Since the release of the December WASDE report, U.S. corn quotes rose, peaking at \$191/ton and then fell to \$180/ton by early January as prices continued to be pressured by large supplies and a strong dollar. As old-crop exportable supplies tighten, Argentine quotes remain \$10 above U.S. Meanwhile, Black Sea rose to end about \$9 above U.S. prices. Brazilian quotes were no longer available as of mid-December, notably earlier than in the previous few years when they ceased in February or as late as April.

TRADE CHANGES IN 2014/15

Selected Exporters

- **Australian barley** is raised 200,000 tons to 4.5 million on larger-than-expected carryin and strong global demand.
- **U.S. sorghum** is raised 1.0 million tons to 6.8 million, the highest level in more than 2 decades, on steady purchases by China.

Selected Importers

- **EU corn** is boosted 1.0 million tons to 7.0 million on the pace of import licenses and greater wheat exports.
- **Turkish corn** is slashed 1.0 million tons to 1.5 million due to the lower-than-expected pace of early-season shipments and imports of non-grain feed ingredients.
- **Canadian corn** is boosted 300,000 tons to 1.0 million on strong early-season shipments from the United States.
- **Iranian** and **Tunisian barley** are raised 200,000 tons each to 1.2 million and 300,000, respectively, on recent purchases.
- **Chinese sorghum** is raised 1.2 million tons to 6.2 million on a continued strong pace of purchases and shipments.
- **Japanese sorghum** is cut 200,000 tons to 1.0 million due to weak early-season shipments and purchases.

Notes: Stocks, exports and consumption are expressed on a milled basis in marketing years.

ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE

REGIONAL TABLES

North America: Canada, Mexico, the United States.

Central America: Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama.

Caribbean: Anguilla, Antigua and Barbuda, Aruba, Bahamas, Barbados, Bermuda, British Virgin Islands, Cayman Islands, Cuba, Dominica, Dominican Republic, French West Indies, Grenada, Guadeloupe, Haiti, Jamaica and Dep, Leeward-Windward Islands, Martinique, Montserrat, Netherlands Antilles, Puerto Rico, Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Trinidad and Tobago, Turks and Caicos Islands, Virgin Islands of the U.S.

South America: Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Falkland Islands (Islas Malvinas), French Guiana, Guyana, Paraguay, Peru, Suriname, Uruguay, Venezuela.

EU: Austria, Belgium/Luxembourg, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

Other Europe: Albania, Azores, Bosnia and Herzegovina, Former Yugoslavia, Gibraltar, Iceland, Macedonia, Montenegro, Norway, Serbia, Switzerland.

Former Soviet Union: Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan.

Middle East: Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates, Yemen.

North Africa: Algeria, Egypt, Libya, Morocco, Tunisia.

Sub-Saharan Africa: all African countries except North Africa.

East Asia: China, Hong Kong, Japan, South Korea, North Korea, Macau, Mongolia, Taiwan.

South Asia: Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, Maldives.

Southeast Asia: Brunei, Burma, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Vietnam.

Oceania: Australia, Fiji, New Zealand, Papua New Guinea.

OTHER NOTES

Local Marketing Years (LMY): LMY refers to the 12-month period at the onset of the main harvest, when the crop is marketed (i.e., consumed, traded, or stored). The year first listed begins a country's LMY for that commodity (2014/15 starts in 2014); except for summer grains in certain Southern Hemisphere countries and for rice in selected countries, where the second year begins the LMY (2014/15 starts in 2015). Key exporter LMY's are:

| Wheat | Corn | Barley | Sorghum |
|--------------------------|-------------------------|--------------------------|-------------------------|
| Argentina (Dec/Nov) | Argentina (Mar/Feb) | Australia (Nov/Oct) | Argentina (Mar/Feb) |
| Australia (Oct/Sep) | Brazil (Mar/Feb) | Canada (Aug/Jul) | Australia (Mar/Feb) |
| Canada (Aug/Jul) | China (Oct/Sep) | European Union (Jul/Jun) | United States (Sep/Aug) |
| China (Jul/Jun) | South Africa (May/Apr) | Russia (Jul/Jun) | |
| European Union (Jul/Jun) | United States (Sep/Aug) | Ukraine (Jul/Jun) | |
| India (Apr/Mar) | | United States (Jun/May) | |
| Kazakhstan (Jul/Jun) | | | |
| Russia (Jul/Jun) | | | |
| Turkey (Jun/May) | | | |
| Ukraine (Jul/Jun) | | | |
| United States (Jun/May) | | | |

For a complete list of local marketing years, please see the FAS website (<http://www.fas.usda.gov/psdonline/psdAvailability.aspx>).

Stocks: Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

Consumption: World totals for consumption reflect total utilization, including food, seed, industrial, feed, and waste; as well as differences in local marketing year imports and local marketing year exports. Consumption statistics for regions and individual countries, however, reflect food, seed, industrial, feed, and waste only.

Trade: All PSD tables are balanced on the different local marketing years. All trade tables contain Trade Year (TY) data which puts all countries on a uniform, 12-month period for analytical comparisons: wheat is July/June; coarse grains, corn, barley, sorghum, oats, and rye are Oct/Sept; and rice is calendar year.

EU Consolidation: The trade figures starting from 1999/00 represent the European Union (Croatia plus the former EU-27) and exclude all intra-trade. For the years 1960/61 through 1998/99, figures are the EU-15 and also exclude all intra-trade. EU-15 member states' data for grains are no longer maintained in the official USDA database. Data for the individual NMS-10, plus Bulgaria, Romania, and Croatia, exists only prior to 1999/00.

Statistics: (1) Wheat trade statistics include wheat, flour, and selected pasta products on a grain equivalent basis. (2) Rice trade statistics include rough, brown, milled, and broken on a milled equivalent basis. (3) Coarse grains statistics include corn, barley, sorghum, oats, rye, millet, and mixed grains but exclude trade in barley malt, millet, and mixed grains.

Unaccounted: This term includes grain in transit, reporting discrepancies in some countries, and trade to countries outside the USDA database.

The Global Commodity Analysis Division, Office of Global Analysis, Foreign Agricultural Service, USDA, Washington, DC 20250, prepared this circular. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attachés and Foreign Service officers, office research, and related information. Further information may be obtained by writing the Division or telephoning (202) 720-3448.

Note: The previous report in this series was Grain: World Markets and Trade December 2014. For further details on world grain production, please see World Agricultural Production January 2015.

This circular is available in its entirety on the Internet via the Foreign Agricultural Service Home Page. The address is: <http://www.fas.usda.gov>
