de Bioeconomía**

# CAPACITACIÓN EN ACUICULTURA EN IMÁGENES

## CENADAC

Desde el año 2.000 se vienen realizando capacitaciones teórico – prácticas en el Centro con la finalidad de divulgar los avances tecnológicos logrados, las adaptaciones de las mismas a nuestro país y los productos con valor agregado que se pueden lograr a partir de los organismos acuáticos generados por la actividad.

El CENADAC desarrolla experiencias de cultivo acuícola de manera que este sistema resulte productivo, pero también ambiental, social y económicamente sostenible, minimizando el impacto en los ecosistemas.

Foto 1 y 2: Redada en estanques de tierra realizada por técnicos del CENADAC y pasantes.

Foto 3 y 4: Redada de peces de cultivo y selección de reproductores de pacú.

Foto 5 y 6: Trabajando en sala y en el laboratorio previo y pos reproducción de pacú.  
Los pasantes se suman a esta actividad cuando coincide su período de capacitación con el ciclo reproductivo de alguna de las especies en cultivo.

Foto 7: Siembra y conteo de alevinos en estanque escavado en tierra.

Foto 8: Alimentando a peces en cultivo por parte de una pasante. Las dietas en su mayoría se formulan en el Centro con utilización de ensilados (fabricados a base de desechos de pescados) e insumos regionales.

Foto 9 y 10: Grupo de estudiantes durante una visita al CENADAC. Trabajo en tanques circulares de lona y en tanques de cemento con juveniles de tilapia.

the 1990s, the number of people in the world who are poor has increased from 1.2 billion to 1.6 billion.

There are a number of reasons why the number of people in the world who are poor has increased. One reason is that the world's population has grown rapidly. Another reason is that the world's economy has not grown fast enough to keep pace with the population growth.

There are a number of things that can be done to help reduce the number of people in the world who are poor. One thing is to help the world's economy grow faster. Another thing is to help the world's population grow more slowly.

There are a number of things that can be done to help the world's economy grow faster. One thing is to help the world's countries to trade more with each other. Another thing is to help the world's countries to attract more investment from other countries.

There are a number of things that can be done to help the world's population grow more slowly. One thing is to help the world's countries to provide better education for their children. Another thing is to help the world's countries to provide better health care for their people.

There are a number of things that can be done to help the world's countries to trade more with each other. One thing is to help the world's countries to reduce trade barriers. Another thing is to help the world's countries to improve their infrastructure.

There are a number of things that can be done to help the world's countries to attract more investment from other countries. One thing is to help the world's countries to improve their legal system. Another thing is to help the world's countries to improve their government.

There are a number of things that can be done to help the world's countries to provide better education for their children. One thing is to help the world's countries to improve their schools. Another thing is to help the world's countries to improve their teachers.

There are a number of things that can be done to help the world's countries to provide better health care for their people. One thing is to help the world's countries to improve their hospitals. Another thing is to help the world's countries to improve their doctors.

There are a number of things that can be done to help the world's countries to reduce trade barriers. One thing is to help the world's countries to negotiate trade agreements. Another thing is to help the world's countries to improve their trade policies.

There are a number of things that can be done to help the world's countries to improve their infrastructure. One thing is to help the world's countries to build roads. Another thing is to help the world's countries to build bridges.

There are a number of things that can be done to help the world's countries to improve their legal system. One thing is to help the world's countries to improve their courts. Another thing is to help the world's countries to improve their lawyers.

There are a number of things that can be done to help the world's countries to improve their government. One thing is to help the world's countries to improve their elections. Another thing is to help the world's countries to improve their public services.

There are a number of things that can be done to help the world's countries to improve their schools. One thing is to help the world's countries to improve their curriculum. Another thing is to help the world's countries to improve their teachers.

There are a number of things that can be done to help the world's countries to improve their hospitals. One thing is to help the world's countries to improve their equipment. Another thing is to help the world's countries to improve their doctors.

There are a number of things that can be done to help the world's countries to improve their courts. One thing is to help the world's countries to improve their judges. Another thing is to help the world's countries to improve their lawyers.

There are a number of things that can be done to help the world's countries to improve their elections. One thing is to help the world's countries to improve their voters. Another thing is to help the world's countries to improve their candidates.

There are a number of things that can be done to help the world's countries to improve their public services. One thing is to help the world's countries to improve their roads. Another thing is to help the world's countries to improve their bridges.

There are a number of things that can be done to help the world's countries to improve their curriculum. One thing is to help the world's countries to improve their textbooks. Another thing is to help the world's countries to improve their teachers.

There are a number of things that can be done to help the world's countries to improve their equipment. One thing is to help the world's countries to improve their hospitals. Another thing is to help the world's countries to improve their doctors.

There are a number of things that can be done to help the world's countries to improve their judges. One thing is to help the world's countries to improve their courts. Another thing is to help the world's countries to improve their lawyers.

There are a number of things that can be done to help the world's countries to improve their voters. One thing is to help the world's countries to improve their elections. Another thing is to help the world's countries to improve their candidates.

There are a number of things that can be done to help the world's countries to improve their textbooks. One thing is to help the world's countries to improve their curriculum. Another thing is to help the world's countries to improve their teachers.

There are a number of things that can be done to help the world's countries to improve their hospitals. One thing is to help the world's countries to improve their equipment. Another thing is to help the world's countries to improve their doctors.

There are a number of things that can be done to help the world's countries to improve their courts. One thing is to help the world's countries to improve their judges. Another thing is to help the world's countries to improve their lawyers.

There are a number of things that can be done to help the world's countries to improve their elections. One thing is to help the world's countries to improve their voters. Another thing is to help the world's countries to improve their candidates.
