Slaughter: in slaughter houses under federal inspection by SENASA.

Production: estimated from slaughter houses under federal and provinces inspection. Liveweight source: Avimetría

Imports: includes whole birds and parts. Source: INDEC

Exports: includes edible products that fall into consumption ratio and also chicken paws. Source: INDEC.

Consumption: estimated consumption = production + imports - exports. It doesn't include stock variations, nor from one month to the next, neither from one year to another.

thous: thousand, tn: tons
