EXPORTACIONES E IMPORTACIONES PESQUERAS 2008

Subsecretaría de Pesca y Acuicultura

Dirección de Economía Pesquera

La Subsecretaría de Pesca y Acuicultura, dependiente de la Secretaría de Agricultura, Ganadería, Pesca y Alimentos, actualiza con esta publicación, la serie dedicada a la presentación de datos e información sobre el comercio exterior de productos pesqueros de la República Argentina.

Se ha considerado necesario continuar con el encuadre general de situación de las exportaciones e importaciones pesqueras, para lo cual se tomó en consideración el año 2008.

Se han tomado como base los datos del Instituto Nacional de Estadística y Censos (INDEC) y de Aduana, presentándose en cuadros, datos generales y datos particulares referidos a los recursos pesqueros más relevantes.

De esta manera la Subsecretaría de Pesca y Acuicultura espera brindar a todos los interesados en el quehacer pesquero, elementos que estima de utilidad para el mejor conocimiento de uno de los aspectos más importantes del mismo, dado su fuerte sesgo exportador, así como para poner de relevancia su aporte a la generación de divisas para el país.
